It has been so great experience for me to study at UI for 1 year. I have been moved by kindness of Indonesian friend of mine. That's why I have never thought that I want to go back to my country while I stayed in

Indonesia. I could understand there are no deference about friends relationship between me and my Indonesian friends although our nationality is different. I could have comfortable time with my Indonesian friends, which was almost same as what i feel with my friend in Japan. I hope I will visit Indonesia again as a worker then I would like to contribute more development of Indonesia in the future.

Yuto Osanai from Chiba University, Japan

I really enjoyed my time as an exchange student in the Faculty of Economics at the University of Indonesia (UI). Even though the way of teaching and learning is very different from the situation in my home university, I gained experience and learned through communicating and collaborating with students from different countries and especially Indonesia.

Studying in an environment and an education system different from my home university offered me new insights and experiences that can only be acquired abroad. UI offers opportunities for everyone on many different levels. Even though not everything is handed to you on a silver platter, as you go out to ask and manage things for yourself, everyone, including university personnel and students, are always happy to help with everything. I appreciated this very much about UI and Indonesia as a whole.

All in all, my semester abroad at the University of Indonesia helped me grow as a student and as a person. My stay in Indonesia offered me unique experiences that I profited from and could not have gained anywhere else.
